

Senior Business Consultant

Company background:

Emerging Markets Consulting (EMC) is a leading Bulgarian IT & consulting company in the areas of Cross-Asset Trading, Portfolio & Risk Management, QA Testing in the Energy & Commodities, Banking & Finance, Manufacturing and other industry sectors. We specialize in end-to-end solutions in Energy/Commodity/Finance Trading and Risk Management, Physical Asset Management, Accounting and Logistics, QA Testing, Business Intelligence as well as Middleware to offer best value professional services to our clients and partners. Our consulting, development, project management and testing teams have significant experience working in corporate multicultural environments with high level of organizational complexity. EMC's professional services team works full time with some of the largest commodity and energy companies as well as some of the biggest financial institutions in the world.

The company is an official premium partner for Bulgaria and the EMEA region with the worldwide market leader in Energy/Commodity Trading and Risk Management software solutions.

Job description:

We are looking for highly motivated business consultants with extensive know-how and proven track record in any of the areas: energy trading, risk management, cross-asset trading & portfolio management, logistics, BO operations and accounting. The ideal candidate will be able to deliver high quality professional implementation services and possesses the abilities to guide the client in the analysis of their business operations as well as the technical adaptation of the respective E/CTRM solution. The candidate should be self-driven, well organized and capable of performing his/her own tasks in a team as well as fast decision making under pressure and strict deadlines. The job requires extensive traveling (additional compensation available + all travel expenses covered) mostly in Europe.

Job requirements:

- Bachelor/Master degree in Business Administration, Economics, Information Technology or Information Management (preferably connected with TRM, Energy or Banking sectors)
- Previous relevant working experience (>1,5 years) a must
- A proven consulting track record is a plus
- Practical knowledge in modeling and evaluating Energy, Oil, Gas or financial trading products
- Risk/portfolio management skills

- Knowledge of any E/CTRM/FTRM systems is a plus
- Eagerness to learn and the ability to work under pressure
- Ability to integrate and work within complex multicultural teams
- Willingness and the flexibility to travel (mostly in Europe)
- German language skills a plus
- Fluency in English is a must (written and spoken)

What we offer:
