

Software Developer

Company background

Emerging Markets Consultants (EMC) is a leading Bulgarian company in the risk management, cross-asset trading & portfolio management consulting in Oil and Gas, Energy and Banking sectors. Our consultants and developers work full time with some of the biggest commodity and energy companies as well as some of the biggest banks in the world. The company is an official partner of OpenLink for Bulgaria and Eastern Europe, the worldwide leader in Energy Trading and Risk Management Software.

Job description

We are looking for a motivated Software Developer with excellent programming skills in Java that will be responsible for new software development as well as working on existing Java solutions as part of Energy and Finance Management software applications. The ability to multitask is a must since often there will be several simultaneous projects including working with our business consultants to resolve client issues, testing and debugging, gathering new technical requirements and implementing various functionalities, interfaces, applications and components improving the system's functionality and meeting the exact needs of our clients.

The ideal candidate

- Self-driven team player with the ability to work individually (if needed)
- Ability to understand business requirements and apply them in the best possible way to implement and produce good technical solutions
- Ability to estimate and execute implementation tasks in a timely and efficient manner

Job requirements

- BS/MS in Computer science degree or previous relevant IT training
- Very good practical experience and knowledge in Java and J2EE
- Very good practical experience with relational databases, including Oracle or MS SQL Server
- Previous relevant working experience in software development (2+ years) with Java
- Desire to learn, be creative and work in a team environment
- Very good command of the English language (written and spoken)

What we offer

Our office in Sofia will provide you the perfect environment to further expand your competences by working in a team that is international, demanding and result oriented. We offer competitive remuneration package that includes:

- Attractive salary (based on prior experience & educational background)
- Flexible bonus schemes (performance based)
- Hybrid mode of working with home office opportunities and flexible working hours
- Additional Health and Dental insurance
- IT Conferences sponsored by the company
- Opportunity for professional growth with external and internal trainings
- Company sponsored laptop and mobile phone
- Multisport card
- Fresh fruits and refreshments in the office

- Fun games in the office
- Summer and winter team buildings twice a year abroad

The position is available immediately. Confidentiality is guaranteed. If you feel intrigued by this opportunity, please send your CV to career@emcbg.com
